FOR
CLEAN
FUTURES

The MISSION

We Design, Engineer and Manufacture, the Safest and Most Efficient Cleaning Solutions. Striving to Solve Society's Everlasting Health Challenges.

Inspired by the Nordic living synonymous with everyday simplicity and efficiency, we use our technology effectively eliminating odours and harmful particles generated by various pollution sources, significantly reducing and eliminating incidental microorganisms, viruses, and parasites.

The INSPIRATION

Our story is short, but is one about powering the world, through a quarter of a century of experience in engineering innovations, we saw first-hand the world grow.

We wanted to share our ideas with the world, and to make a difference from the Finnish wilderness. We provide advanced cleaning methods for doctors, to leaders, and to those that demand safer and healthier solutions.

The PERFORMANCE

Every consumer in every field deserves to use the cleanest and most comfortable gear everyday, whether for sport, arts, services or industry; clothing that always feel fresh, thus ensuring they concentrate only on performing.

Year after year we have proven that we do make a difference. At the forefront of all requirements is safety. Hygiene will always come first, and now more than ever do we need to protect ourselves from contaminations and odours.

We are ever present in any backstage to keep each performance as clean as if it was the first. Introducing our Universal Purification System (UPS) is now a reality, a system that reinvents the way we purify rooms from surface bacteria and air borne pathogens. Our sophisticated units are created with the purpose of providing the highest level of hygiene for all surfaces, even hard to reach ones like high walls or ceilings, which are as susceptible to potential infection.

The H Series

Our ultimate solution in total cleaning, fully enhanced to disinfect items to an unparalleled level of hygiene. With choices of a standard programme to eliminate the most common daily contaminations to unprecedented total cleansing modes; complete odour removal, making this range the choice for professionals, from laboratories and hospitals; suitable for most public needs such as in transport hubs, theatres, theme parks, sports and services.

H Series

	H200	H800	H2000	H800F
Exterior				
Width	600 mm	1000 mm	1800 mm	1000 mm
Depth	598 mm	598 mm	598 mm	598 mm
Height	800 mm	1835 mm	1835 mm	1835 mm
Interior				
Width	395 mm	800 mm	1600 mm	800 mm
Depth	578 mm	600 mm	600 mm	600 mm
Height	640 mm	1570 mm	1570 mm	1570 mm
Additional	-	-	-	Drying System
Volume	152 L	758 L	2010 L	758 L
Weight	50 Kg	140 Kg	200 Kg	140 Kg
Consumption	0.35 kWh	0.35 kWh	0.35 kWh	1.84 kWh
Power	230V	230V	230V	230V
Protection	10a	10a	10a	10a
IP Class	IP2X	IP2X	IP2X	IP2X
Certified	EC-60335- CE	EC-60335- CE	EC-60335- CE	EC-60335- CE

The New G Series

Our extremely environmentally friendly system; with ultra-low power consumption; cleaning without usage of detergents or other substances; leaving no waste nor any water discharge, the new G Series helps our customers dramatically reduce their impact on nature.

Into its second decade of service this mobile bestseller still reigns supreme as the leader in its category for it is sheer power and efficiency. Now in its 5th generation design debut, and even simpler to operate. Elozo active oxygen cleaning systems, is recommended by many schools, gyms and public services. Whether it is comprehensive and thorough cleaning performance, or zero pollution to the preschool education environment, both stand out from other products in the same field, for taking that extra step in effectiveness.

Everyone deserves to be safe and prevention is better than curing.

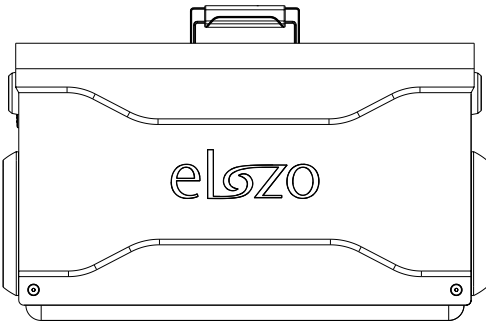

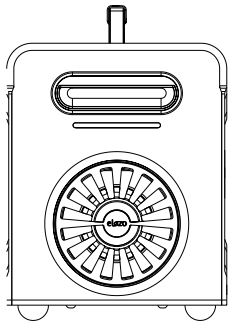

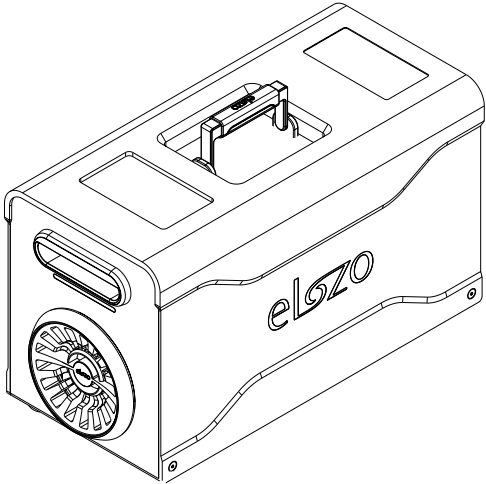

G180

Dimensions	
Width	191 mm
Depth	430 mm
Height	250 mm
Weight	11 Kg
O3 Concentration	70ppm
Consumption	0.35 kWh
Voltage	230V
Protection	9A
IP class	IP2X
Certified	EC-60335- CE
Optional	Twin O3 Extraction Unit

DIRECT OPERATION SYSTEM
A fast response controller, simplifying customised func-
tions and updatable services.
